Gentlemen:

We are writing to advise you that our Dyestuff and Chemical products business is developing nicely and the progress we have made in the manufacture of a number of Dyestuffs and Intermediates is much better than we had at first anticipated, and we have received a nice volume of business from many of the coated paper manufacturers.

In spirit with the movement to aid the Government in the elimination of all unnecessary travel from railroads, we have deemed it advisable to write to prospective users of our products to ascertain if they are now or may in the future be interested in any of the following:

Acid Oranges	Acid Reds
Acid Scarlets	Fuchsines
Canary Yellow Paste	Pulp Colors
Dry Lakes	Acetic Acid

Such information as you may care to give us with reference to your requirements will put us in a position to keep you informed relative to our products, and we will, therefore, appreciate a line from you with reference to this matter.

We will be pleased to send samples and quotations and information upon request. It is our intention to expand the range of colors we are making and in all cases offer only material of highest standard and concentration, and suggestions from you with reference to any of this material will always be appreciated.

Awaiting your reply, we are

Yours very truly,
